**God Story:**

- My family and I left Brazil and moved to the US in April 2014. We were commissioned to serve as church planters in New England and today serve two churches in two different states. We have seen a lot of church planters leaving the mission field in the last year because of COVID. In Massachusetts, they consider pastors to be vital and allowed us to receive our vaccine last month. Praise God for allowing us to continue to serve Him and reach people with the Gospel.
