Prayers:

- Pray for safety and wisdom of our staff and volunteers as they meet with clients.
- For God to soften the hearts of clients who believe abortion is the only answer.
- For clients going through our E3 parenting program. Pray they would be excited to learn to be good parents & for opportunities to share the Gospel.
- For good weather, an easy set up and safety for our walkers and runners.

Important Dates:

- May 15 - Born to Run 5K

God Story:

- Last month a former client called to share her story with us. She said that when she arrived at PWC last year, she sat in her car and cried. She decided that if she was less than 9 weeks along, she would have an abortion. During the ultrasound, it was found that she was 9 weeks and ONE DAY. She stuck to her decision. She wanted us to know she had decided against an abortion because of the ultrasound, & she can't imagine her life without her baby. To God be all the Glory!

Prayers:

- Plans are being laid for our next trip for Alton and David, most likely October, to work with Sereer churches in the region to help further the work.
- We will also be spending time in our village to share Good News and continue some discipleship among believers.
- We ask for prayer that God's Will be done in it all, that we would follow Him and celebrate what He is doing in the work.

Cassie - Office Manager of a Non-Profit in West Africa - ***Desert.land2020@gmail.com***

Prayers:

- Continue to pray for language learning.
- Pray for perseverance and patience as we have gotten settled in, and are learning the real life struggles of daily life in Africa.
- I am praying to find a national friend.

Important Dates:

- May 12 - my roommate Ashley's birthday

God Story:

- It has been so encouraging to hear from other teammates who have been in the country for a long time. The testimonies of their faithfulness and willingness to go into the hard places has been so great to hear. Especially to hear of some who have accepted the Gospel. I pray one day someone can say that about my work. I am learning so much, even tapping into my plumbing skills; we had 2 leaks underground that caused us to lose all our water each day!
